Gardenbeds amari 

Have you ever eaten a sun-ripened tomato?

There is nothing like the full rich flavours that come from a vine ripened tomato. It's just superb! Tomatoes love the warmth, they grow best through the summer months. Spring and early summer are the ideal times to sow tomatoes from seed. Choose a spot that gets plenty of sunlight, mix in some organic compost or old manure, water them in well at planting time and mulch is recommended to retain soil moisture. Then fertilise 5 weeks and 10 weeks after planting.

Quality Assurance

Amari Garden Beds are extremely high quality, made from durable tank making steel that's long lasting and looks great. Manufactured using state of the art equipment, we can control every aspect of the production to ensure every garden bed meets our high standards. With a large range of shapes and sizes and no assembling needed. Amari Garden Beds come with a full 10 year warranty.

Patio Garden Beds

The Amari Patio Beds are ideal for putting straight on your favourite pavers, timber deck, balcony or concrete. The unique plastic base is fitted half way up and sealed so it doesn't stain. It also means you don't have to fill the whole bed with soil and you can recapture the excess water and nutrients for reuse via the drainage kit. This clever product has found other useful applications such as a raised tank for fish, turtles and yabbies.

Plastic base fitted half way up the patio garden bed saves you valuable soil and work!

Drainage tap allows you to recover excess water and valuable nutrients for re-use.

Other Uses

They have other great uses such as flower beds, herb beds and ornamental beds, a round bed with a weeping cherry tree makes a fantastic centre piece.

Kids Love Gardening

Get the kids into gardening and they are more likely to eat something they have grown themselves. Gardening gets them off the electronic devices and connects them with the outdoors and nature. Our 1100mm x 600mm in half height (450mm) is ideal for letting kids have their own garden bed to experiment and become green thumbs.

There are often school grants available for gardening projects and if your kid's school hasn't set up a raised veggie bed project yet or wants to expand it, then suggest they contact us and we can help them create something very special.

Save your back, have fun, eat healthy and save money!
